```

```
Name :
We will be cleaning the big data and make a comparison to show who has a health
ier heart smokers OR non smokers, uisng a line graph
Also we will be deriviring which age group has the high chances of coronary hea
rt disease in 10 years
```

Task 1 - Plot a line graph to show the difference between heart rate of smokers and non smokers

In [156]:
```
#Import libraries
import pandas as pd
import matplotlib.pyplot as plt

#read the csv
df = pd.read_csv('framingham.csv')
df
```

Out[156]:
